

**This is the fifth time that
Cotemar receives the environmental certificate**

August 26, 2022

Mexico City, Mexico.- Today, **Grupo Cotemar** announced that, for the fifth consecutive year, it has received the **Environmental Quality Certificate** from the Federal Environmental Protection Agency (**PROFEPA**, Spanish acronym), which emphasizes the good practices followed within the Company's warehouse, supply dock, and administrative offices in Ciudad del Carmen, Campeche.

The **Environmental Quality Certificate** issued by the **PROFEPA** confirms that the prevention and control systems used in **Cotemar's** operations meet the standards necessary to decrease any potential risks and optimize the company's productive processes, thus achieving a sustainable improvement to the work conditions of its employees as well as the residents of the city and the natural resources surrounding the facilities.

This certificate also acknowledges that the company is prepared to deal with any environmental emergencies and that it is continually looking to improve its processes and increase its competitiveness and continuity in the market in a way that is sustainable for its environment.

"We follow the 'be a good neighbor' philosophy in every way, which is why we work hard to preserve and care for the environment in Ciudad del Carmen by respecting it and minimizing the environmental impact that our operations could have," said an internal Cotemar source.

For over 43 years, **Cotemar** works in strict compliance with its values and ethical precepts, promoting the development of the energy sector in Mexico.
