

## Cotemar receives IQNet SR10 certification for the implementation of a CSR Management System

February 14, 2023

Mexico City, Mexico. **Grupo Cotemar** received the **IQNet SR10 certificate**, which verifies and validates the implementation of the Social Responsibility Management System, making Cotemar **the first company in Mexico to obtain this certificate and the only one in the energy sector to certify this system.**

Granted by AENOR certification agency, the **IQNet SR10 certification** is a high-level standard based on the IQNet SR10:2015 specification, which has the same value as an ISO certification to validate Cotemar's commitments to its shareholders, Board of Directors, employees, customers, suppliers, government, business partners, civil associations, and the community where it operates. This certification also validates the company's commitments regarding human rights, anti-corruption, social, and environmental impacts.

A Social Responsibility Management System ensures that the company focuses on ethical, economic, environmental, and social sustainable development, in conformity with the specifications of the applicable standards while also ensuring compliance with transparency and contractual agreements; fair treatment and non-discrimination; workplace, salary, and contract conditions; industrial health and, safety; training and qualification; customer service; confidentiality and data protection mechanisms; quality, safety, and environmental protection mechanisms; anti-corruption mechanisms; transparent payment terms; non-interference in political affairs; tax compliance; environmental impact measurement; ecosystem preservation and restoration mechanisms; pollution prevention, recycling and efficient use of resources, among others.

As a supplier for **PEMEX** for over 44 years, **Cotemar** performs under the highest quality standards at a national and international level, accumulating more than 20 certifications and national and international operating standards.
