

Cotemar, a 100% smoke-free space

September 14th, 2023.

Mexico City, Mexico.- **Grupo Cotemar** was recognized by the Secretariat of Health, through the National Commission Against Addictions (Conadic), as a space 100% free of tobacco smoke and emissions.

In this way, the health authority certifies that all Cotemar's facilities are 100% smoke-free spaces, so smoking is not allowed in any of the company's facilities, in accordance with the provisions of the General Law for Tobacco Control (LGCT), since it is harmful in all its forms and there is no safe level of exposure to tobacco.

Likewise, to support those who want to quit smoking, **Cotemar** has a Smoking Clinic with the aim of providing care to employees with problems related to smoking. The Clinic is made up of a team of professionals, trained in prevention, management, and control of patients with tobacco dependence, where collaborators who come voluntarily receive personalized attention under a program that includes medical care, nicotine addiction replacement and psychological support.

According to the World Health Organization (WHO), tobacco kills up to half of the people who consume it; it is estimated that each year, more than 8 million people die from tobacco and more than 7 million of these deaths are due to direct tobacco consumption and around 1.2 million are a consequence of the exposure of non-smokers to second-hand smoke.

Cotemar reaffirms its commitment to promoting healthy lifestyle habits that seek to boost the quality of life of its employees and their families.
