

New Cotemar Medical Clinic

May 15th of 2024.

Mexico City, Mexico.- Grupo Cotemar inaugurated the Cotemar Medical Clinic in Ciudad del Carmen, Campeche, with the capacity to provide better care and service. It is a primary care center, through which it seeks to promote a culture of self-care and health surveillance through medical, nutritional, psychological, and dental services, all with a preventive and comprehensive approach. It should be noted that Cotemar is the only private company that has this type of infrastructure within Mexico's energy sector.

The new Cotemar Medical Clinic has exclusive nutrition and psychology spaces, to provide care with privacy and comfort. Likewise, it has new services such as dental service, laboratory, and ergometry, as well as modern equipment for greater certainty in diagnoses.

In the first stage, the Cotemar Medical Clinic will offer the following services: general consultation, comprehensive check-up, healing care, chronic degenerative diseases care, breastfeeding area, pre-employment exams, and dental, psychological, and nutritional consultations. Subsequently, in the coming months, in a second stage, it will also include laboratory sample collection, audiometry, spirometry and ergometry (stress test).

Initially, the Cotemar Medical Clinic will provide care exclusively to employees of Cotemar and its subsidiary companies. Starting in January 2025, the service will be extended to direct family members of employees, including parents, partners, and children.

With the new Cotemar Medical Clinic our philosophy of considering health as the most valuable possession of every person is confirmed, providing a dignified space that lives up to what Cotemar is and represents: A Great Place to Work.
