

Cotemar receives the "Exceptional Companies 2024" recognition for contributing to the SDGs

February 14th of 2025.

Mexico City, Mexico.- Grupo Cotemar has once again been awarded the Exceptional Companies Recognition, with an exceptional level for the practice "Cotemar Agenda 2030: Strategic contribution to the SDGs", a category that rewards organizations that create shared value by addressing the needs of their stakeholders and reaffirming their commitment to the Sustainable Development Goals.

The distinction in this category seeks to make visible the Social Dimension and solidarity of companies and institutions, with a special focus on the contribution to the SDGs, oriented towards optimization and innovation in the use of resources, the preservation of the environment, governance and the generation of value for society as a whole.

The Exceptional Companies Recognition is organized by the Business Coordinating Council, the Institute for the Promotion of Quality, and the Communication Council, and highlights organizations that have developed outstanding practices in a culture of innovation and their commitment to excellence.

It is important to note that the practices were evaluated by an Award Board made up of representatives of the convening bodies, who carried out the process without knowing the identity of the participating companies. This was done in order to ensure an objective and transparent decision, based on the proposal of the Evaluation Group, the merits of the practices and the consensus of the Award Board.

For Grupo Cotemar, the 2024 Exceptional Companies Recognition with an exceptional level is a source of pride, as it confirms its commitment to exemplary practices that generate innovative actions, provide outstanding benefits to the community and contribute to the construction of a prosperous Mexico.
