

Cotemar promotes educational development
of its employees through Academia Cotemar

March 4, 2026.

Mexico City. - As part of Cotemar's efforts to enhance the talent and continuous training of its employees, the company celebrated the graduation of the second generation of Academia Cotemar; this program designs development paths for operational staff, guaranteeing mastery of key competencies in each position.

In a ceremony held in Ciudad del Carmen, Campeche, eighty-eight employees successfully completed their studies:

- Eighteen employees completed their secondary education and thirty-six completed high school.
- Thirty-four specialists graduated in technical areas (19 specialist pipefitters and fifteen welders).

During the event, the State Institute of Adult Education of the State of Campeche (Instituto Estatal de Educación para los Adultos del Estado de Campeche, IEEA Campeche) awarded a special recognition to Cotemar for its contribution to combating educational backwardness and its commitment to the training of young people and adults.

The Director General of IEEA, Engineer Jorge Alberto Sanmiguel Wong, stated that “the coordinated work between institutions and companies demonstrates that it is indeed possible to combat educational inequality. Each certificate represents an open door for students, a new opportunity for personal and professional growth.”

Academia Cotemar stands out as an initiative that combines technological flexibility with physical training; its approach allows it to comply with international regulations and standards, training employees with multiple skills, a prominent level of motivation and adherence to the company's processes of excellence.

This achievement, coupled with the recognition from IEEA Campeche, is a testament to Cotemar's commitment to the well-being and quality of life of its team and their families, as well as the dedication of its employees to achieving their educational and professional goals.
