

Cotemar: Green Leadership recognized by PROFEPA

August 26, 2025.

Mexico City, Mexico.- Grupo Cotemar received the Level 1 Environmental Quality Certificate for its Administrative Office son Calle 26 and the Supply Warehouse, located in Ciudad del Carmen. This recognition was granted by the Federal Attorney for Environmental Protection (Procuraduría Federal de Protección al Ambiente, PROFEPA) as part of the National Environmental Audit Program (Programa Nacional de Auditoría Ambiental, PNAA), reaffirming the company's commitment to exemplary environmental practices in its operations.

PNAA is aimed at operating companies that, due to their location, size, characteristics, and scope, may cause negative effects or impacts on the environment or exceed the limits established in the applicable provisions on environmental protection, prevention, and restoration.

This Environmental Quality certificate is added to the one obtained in 2024, at level 2, for its storage facilities and supply infrastructure, becoming the first company in the state of Campeche to receive the certificate at this level.

“At Cotemar, our environmental approach translates into concrete actions that generate tangible improvements, supported by rigorous documentation that guarantees transparency and participation. Therefore, we apply preventive strategies in all processes to minimize risks and impacts, and we are committed to reporting specific indicators that reflect our environmental performance,” said a source from Cotemar.

The Environmental Quality Certificate represents an opportunity to take environmental burdens and voluntarily direct them towards Environmental Self-Regulation-Environmental Management System, continuous improvement, inclusion of the environment in the axis of business activity and, in general, greater certainty for those involved. This achievement emphasizes our commitment to sustainability and environmental responsibility in our operations, with ongoing actions to care for the environment, to benefit ourselves, the community, and our country.
